Scientific & Production Company BARS-2 is a leader of the Russian and CIS masterbatches market.

Founded in 1992, the company focuses its activity on development and production of colour and additive masterbatches, which are designed for colouring and modification of thermoplastic polymers.

Today BARS-2 has several production sites in Russia. The company has a wide dealer network in the Russian Federation and CIS countries. BARS-2 Quality Management System operates in accordance with ISO 9001:2015 requirements.
